Subject: Please Support the Consensus Plan -- FCC WT Docket #02-55

Commissioner Jonathan S. Adelstein
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Commissioner Adelstein,

Emergency response communications have never been more critical, or more difficult.

That's because of a common problem on police, fire and EMS radios: interference. Interference, garbled or dropped communications, inhibits first responders from doing their jobs safely and effectively. Essentially, if first responders can't communicate, they can't help and may themselves be in danger.

There is a solution before the FCC: the Consensus Plan. Over 300 public safety organizations, local governments, and congressional officials support this Plan because it eliminates interference before it occurs and at no additional cost to federal, state or local budgets - or the American taxpayer.

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Sincerely,

Paul Mahoney

Subject: Document Security for Gov - Training Conference - Feb 25 - Arl. Va.

To: jadelste@fcc.gov

Document Management and Automation

For the Government Enterprise

Sector Briefing

Document Security

Improving Performance Through Innovative Business Practices

Government Best Practices Training Conference

February 25, 2004*

***please note date has changed from Feb 5.**

**Executive Conference Center
NRECA Headquarters Building
4301 Wilson Boulevard
Arlington, Virginia 22203**

(One-half block off of the Ballston Metro Stop)

Registration Time: 7.30 AM

Program Starts: 8:30 AM

Wrap-up: 4:00 PM

Continental Breakfast, Refreshments, Lunch included.

Registration Fee:

- Government credit card, check, training form or invoice: \$195
- Industry credit card or check: \$395

Special Notes:

§ Please call our information line at 703-807-2027 to obtain instructions on how to access our web page and on-line registration form with secure payment page.

§ Mark your calendar! The Annual Spring Document Automation Conference will be held at this same location on 24 March 2004.

About this conference:

Document security initiatives are defining new levels of document automation that significantly increase protection and assurance in document distribution. New technologies, new applications and new companies are being formed to take these exciting solutions to the government market. New laws will move this quickly from technology solutions to applied practice in government.

And these are important new capabilities. As government has to do more with less, they are being asked to increase protection of sensitive data. That data may be internal memoranda, national security information, communications between private companies and individuals and government or private data under custodianship of the government.

Looking downstream the prospects are exciting. New developments are coming in areas of:

- Electronic signatures
- Digital notary services
- Timestamps
- Document authentication and verification
- Trusted third party validation
- ... and many more

This conference will look at the Document Security Sector within Document Management. New trends, products, solutions and best practices will be highlighted with a focus at the special needs of government.

Many government agencies are sending representatives to the conference! Here's a sampling:

- AHRQ
- Army
- Treasury
- Patent & Trademark Office
- FAA
- Navy
- OCC
- FCC
- Agriculture
- GPO
- FDA
- Missile Defense Agency
- Mine Safety & Health Administration
- Department of Homeland Security
- Justice
- NASA
- Office of the Secretary of Defense
- State of Maryland
- State of Pennsylvania
- SSA
- Defense Logistics Agency
- USCG
- ...and many others.

Confirmed and Invited Speakers

- **Stephen P. Levenson**, Office of the Chief Technology, U.S. Courts (confirmed)
- **Doug W. Cowles**, Senior Vice President, Mailing Systems, Gunther International, Ltd. (confirmed)
- **Mike Miller**, Office of the CIO, FBI
- **Glenda Turner**, CIO Information Assurance, DOD
- **Kathy Schultz**, Records Office, DHS
- **Bill Hadesty**, Director of Cyber Security, USDA
- **Julie Newman**, Symantec
- **David Temoshok**, Federal PKI Policy Manager, GSA Office of Government Wide Policy

Conference Goals

The goal of this training conference is to address:

- Lessons-learned
- Agency plans and business models for implementation
- Application of best practices
- Strategies and tactics
- New products and solutions

Who Should Attend:

- Knowledge managers, Chief Knowledge Officer (CKO)
- Document control officers
- Chief Information Officers (CIO)
- Logistics managers
- Document retention and storage managers
- Program managers
- Industry federal systems integrators and support contractors
- Industry product development, sales and marketing
- IT security managers and information security managers

What you will learn:

- Federal agency plans, programs and new initiatives
- New tools, techniques, practices
- Successes and Lessons-learned
- Innovative government and commercial approaches and applications
- New opportunities and management strategies - what is on the drawing boards
- Commercial and government best practices
- New rules, new policies

Sponsored by:

§ INPUT
§ Society of American Military Engineers
§ Professional Services Council

For more information on conference sponsorships and special exhibitor opportunities, please contact Ms. Donna Anderson at 703/807-2740.

Points of Contact:

§ For information on sponsorship opportunities & exhibitor arrangements, please contact Ms. Cara Lombardi at 703/807-2743.

§ For registration or general information about this event, please call 703/807-2753.
The registration fee for this important training conference is:

- Government attendees: \$195
- Industry, Contractors, Suppliers, Integrators: \$395

Conference Registration Options

- [1] Online** with your credit card – Call 703-807-2027 for web address and instructions.
- [2] Fax** the attached form to 703-807-2728.
- [3] Phone** 703-807-2753 and speak to the Registration Desk.
- [4] U.S. Mail** the form below to:

Market*Access International
4301 Wilson Blvd. #1003
Arlington, VA 22203

Directions to Executive Conference Center:

The Executive Conference Center at Ballston

The National Rural Electric Cooperative Association, Plaza Level

4301 Wilson Boulevard, Arlington, Virginia 22203

Ladies' and men's lounges, public telephones, and a coat room are conveniently located inside this A-rated Conference Center.

Transportation and Parking:

At the corner of Wilson Boulevard and N. Taylor in the heart of Arlington's Ballston district, the Ellipse Conference Center is easily accessible by public transportation or automobile.

From Metro's Orange Line, exit at Ballston; NRECA is less than one block southwest from the Ballston Station. A covered walkway is available from the Metro Station Plaza to the Ballston Common Mall; NRECA is less than one block northwest from the mall exit.

From I-66, take the Glebe Road/Ballston Exit. Follow Glebe until it intersects with Wilson; turn left onto Wilson and left again onto N. Taylor Street. The building's four-level parking garage is accessible from the N. Taylor Street ramp. Rates start at \$2.50 per hour. Two shuttle elevators operate from each garage level to the Plaza Lobby.

Access for the Disabled:

The NRECA building and Ellipse Conference Center meet all ADA requirements and are completely accessible to the disabled.

Marketing, Conference Management and Production by:

Market*Access International, Inc.

The 300 Consensus Plan supporters that have filed with the FCC, along with John Walsh, host of America's Most Wanted, recognize the importance of communications for America's police, fire and EMS workers. This problem has existed long enough, and our first responders deserve better. I am asking you to help.

Please listen to the voices of public safety. Our neighborhoods, families and fellow public safety professionals cannot afford to wait any longer.

Sincerely,

Earl Morgan

Commissioner Michael J. Copps
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Commissioner Copps,

Emergency response communications have never been more critical, or more difficult.

That's because of a common problem on police, fire and EMS radios: interference. Interference, garbled or dropped communications, inhibits first responders from doing their jobs safely and effectively. Essentially, if first responders can't communicate, they can't help and may themselves be in danger.

There is a solution before the FCC: the Consensus Plan. Over 300 public safety organizations, local governments, and congressional officials support this Plan because it eliminates interference before it occurs and at no additional cost to federal, state or local budgets - or the American taxpayer.

I am an FCC licensed Amateur Radio Operator, and I have also monitored Public Safety Radio for 25 years. I have noticed with some concern the increase in interference from cellular phones. I worked for several years as an unarmed Security Officer, and I KNOW first-hand that a working two-way radio can mean LIFE OR DEATH. Like many First Responders, I spent several hundred dollars for Type-accepted (non-Amateur) radios I needed to insure my safety on the job and off-duty.

Sincerely,

Richard Fleming
